

## **Bro. Xavier Storay Mu Outstanding Brother of the Year**

Bro. Xavier Storay is a Saint Paul native. At the University of Minnesota-Twin Cities, he is majoring in Information Technology Infrastructure with disciplines in Development Operations and Security. In addition to Alpha, he serves as the Community Outreach Chair of National Society of Black Engineers and the Vice President of Corporate Relations of SUITE (IT student group). His career aspiration is to become a Chief Data Officer of a company or own his own company.

### **Abbreviated Nominator's Comments:**

From a very early age he was involved! In College, he has continued to be involved in programs like Boys and Girls Club, Huntley House, and on the board of NSBE, a program for black engineers. From setting up partnerships with Microsoft, to spending HOURS relentlessly doing the work of Alpha, taking the initiative to lead this chapter as president, this guy is the epitome of what it means to be a leader. During our process, I was selected as the heart of the line and I will forever be, but as I finish my last semester of undergraduate college life, it makes me happy to know there is a heart of Mu chapter and that is him. He succeeds at uniting us as a chapter and leading us to be servants of all!

Please join me in congratulating our Mu chapter's Alpha of the Year, Brother Xavier Latimer Storay.
